

Vuetura

“Vuetura sells a superior product and provides professional after sale service. Imagine, someone speaking this highly of a company and product and not be on their payroll.”

-Joe Reinovsky, Furman University

Vuetura's Product Suite Includes:

- VueturaTrac Package™
- VueturaTrac Visitor™
- VueturaTrac Evidence™

About Vuetura

Vuetura is a leading provider of visitor and lobby management software, package and mail receiving systems, and evidence tracking management. The VueturaTrac™ applications are in use throughout the United States and Europe with clients including Fortune 1000 companies, universities, hospitals, and governmental organizations.

Vuetura, previously known as CSi, was founded in 1992 to provide shipping and logistics consulting services. In 2000 a change in name mirrored a shift in focus from shipping to critical item tracking and management.

Currently Vuetura offers four unique applications including VueturaTrac Package™, VueturaTrac Visitor™, VueturaTrac Evidence™, and VueturaTrac Asset™. VueturaTrac Package™ is utilized in shipping and receiving environments while VueturaTrac Visitor™ is a security solution monitoring the activity of visitors to and from organizations. VueturaTrac Evidence™ automates the process of organizing and maintaining evidence in legal cases.

With years of expertise in the logistics industry, Vuetura offers a wealth of knowledge in consulting and system design.
